

# Stephen Fulton - Milton Keynes South candidate

## Why am I standing as your Member of Parliament?

“ I have watched MK MPs taking the credit for successes of Milton Keynes without taking responsibility for the failings of their party to increase apprenticeships and secure the ‘City Deal’ investments from the government vital to MK growth. I have seen job opportunities increase but more citizens on Job Seeker Allowance than the SE Region”

If you, like me, have had enough of career politicians falling short and want to make a difference; then read on and find out more at [www.stephenfulton.co.uk](http://www.stephenfulton.co.uk)

Look at policies and ethics that directly impact you and your family in MK

**Vote for the Independent voice of Milton Keynes South**

Turn over to see 4 demands to make on your future MK South MP

Election Communication for Stephen Fulton, 60 Pigott Drive, Milton Keynes, MK5 6JN.

## UK's finest town needs investment to grow - Demand it

The best garden city needs and deserves the best support for continued growth. **Where is the "City Deal" investment?** Government investment to 12 out of the earmarked 20 towns is happening but MK is being **neglected**. Infrastructure is straining NHS, Police, Schools, Transport. **Utilities and jobs must run ahead of housing growth**

## Your vote is your voice – shout it loud for MK. I will shout it loud at Westminster - Demand it

Don't let MK get lost in the South East Midlands political plans, or nationally imposed compromises. **Make MK stand out from the noise**. MPs' party careers are controlled and "whipped" into shape by their party. The SEMLEP Strategic Economic Plan's (published around 2012/13) ambition to secure the UK's Advanced Propulsion Centre, the Alan Turing Institute for Big Data and the HS2 Academy for 2015-2012 were not achieved. The big data agenda has not had enough drive to expand its remit. No more initiatives to be lost in Westminster. **No more climbdowns!**

## The local Political Drive and Passion needs to be matched unreservedly in Westminster - Demand it

The MK Council's strategic planning and understanding has vision and ambition that can drive the town forward; but only if their voice is heard and their message championed **unreservedly** by MK MPs in the Houses of Parliament, in the face of the major party whips. **No more Compromise**

## MK is Great and Growing but no room for Complacency from MK MPs. MK needs and deserves Better - Demand it

The perfect location and New Town facilities along with an ambitious council have created the fastest growing town. However we have no room for complacency. **The reality is: apprenticeships are down and other regions outstrip skilled opportunities**. We need MK jobs for MK people, skilled and trained. We don't want to bring people in! **Out of work benefits are higher** than comparable towns in our region. Plentiful housing supply with too many people on benefits is not healthy. (Statistics from the Office for National Statistics ) **MPs must step it up for our town**
